

TRIUMPH-SERIES

SPECTRALLY SELECTIVE SPUTTERED FILMS

**Feel the difference with our
patented technology**

PRODUCT SERIES DESCRIPTION

Using the most advanced multi-layer sputtering technology, the Triumph Series has a single layer of precious silver that provides perfect heat rejection performance. The film's unique heat reflection properties make the true heat rejecting film. With its darker tone, it is perfect for reducing glare from the harsh sunlight and giving privacy for its users. Highly suitable for areas facing problems of strong glare and heat from sunlight.

TRIUMPH-SERIES

PRODUCT CATALOGUE

T15

Visible Range (380 - 780nm) Transmission Reflection (Ext/Int)	17% 8%/5%
Solar Range (300- 2500nm) IR Rejection Shading Coefficient Total Solar Energy Rejected (TSER)	78% 0.45 61%
UV Range (280 - 380nm) Rejection	>99%
Thickness	3 mil
Warranty	10 years

FILM PROPERTIES

Material: UV-stabilised clear PET

Top Coating: Scratch Resistant

Adhesive: PS

Installation: Inside
