

Z-SERIES

SPECTRALLY SELECTIVE SPUTTERED FILMS

**Feel the difference with our
patented technology**

PRODUCT SERIES DESCRIPTION

Using the most advanced multi-layer sputtering technology, the Z-Series has two layers of precious silver that provides perfect heat rejection performance. The film's unique heat reflection properties makes it the true heat rejecting film. With its exceptional clarity and neutral color tone, it also provides the best looking view and maintains the color integrity of your glass windows.
